

WORSHIP BAND IN HAND

GUIDE TO CUSTOM TRACK UPLOADS

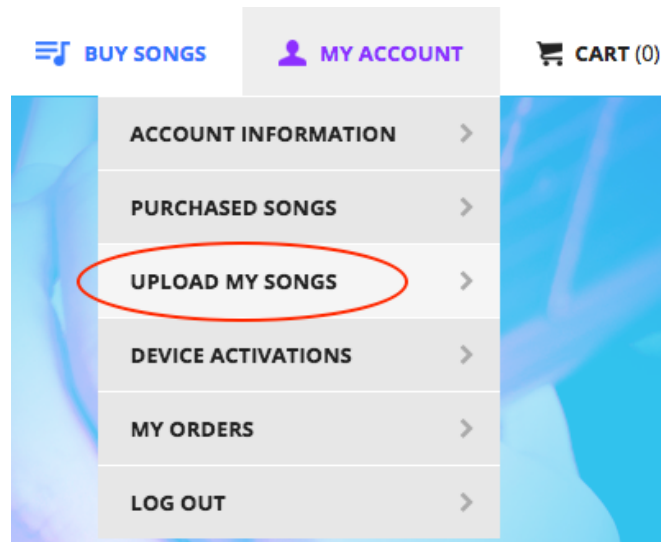

We recommend using Google Chrome to avoid compatibility issues we have seen with other browsers. If you don't have it, please download and install it first.

1) Go to www.worshipbandinhand.com and login by clicking "My Account" then "Sign In"

The screenshot shows a web browser window with the URL <https://worshipbandinhand.com>. The page features the Worship Band in Hand logo and navigation links: FEATURES, USE FOR: LIVE WORSHIP, REHEARSAL & PRACTICE, BUY SONGS, MY ACCOUNT, and CART (0). The MY ACCOUNT dropdown menu is open, highlighting the SIGN IN option. The main content area has a large banner for "ENHANCING WORSHIP TEAMS" with a subtext: "Worship Band in Hand is a simple and powerful app for using Band Tracks to extend Worship teams." Below the banner are buttons for FEATURES and BUY SONGS. At the bottom, there is a section titled "Full Sound with Flexibility" and a list of audio files: 15746011418-0329....mp3 and 13346730705-032....mp3.

2) Once signed in, go back to the “My Account” menu and choose “Upload My Songs”

3) Click the “+ ADD SONG” button to begin the process.

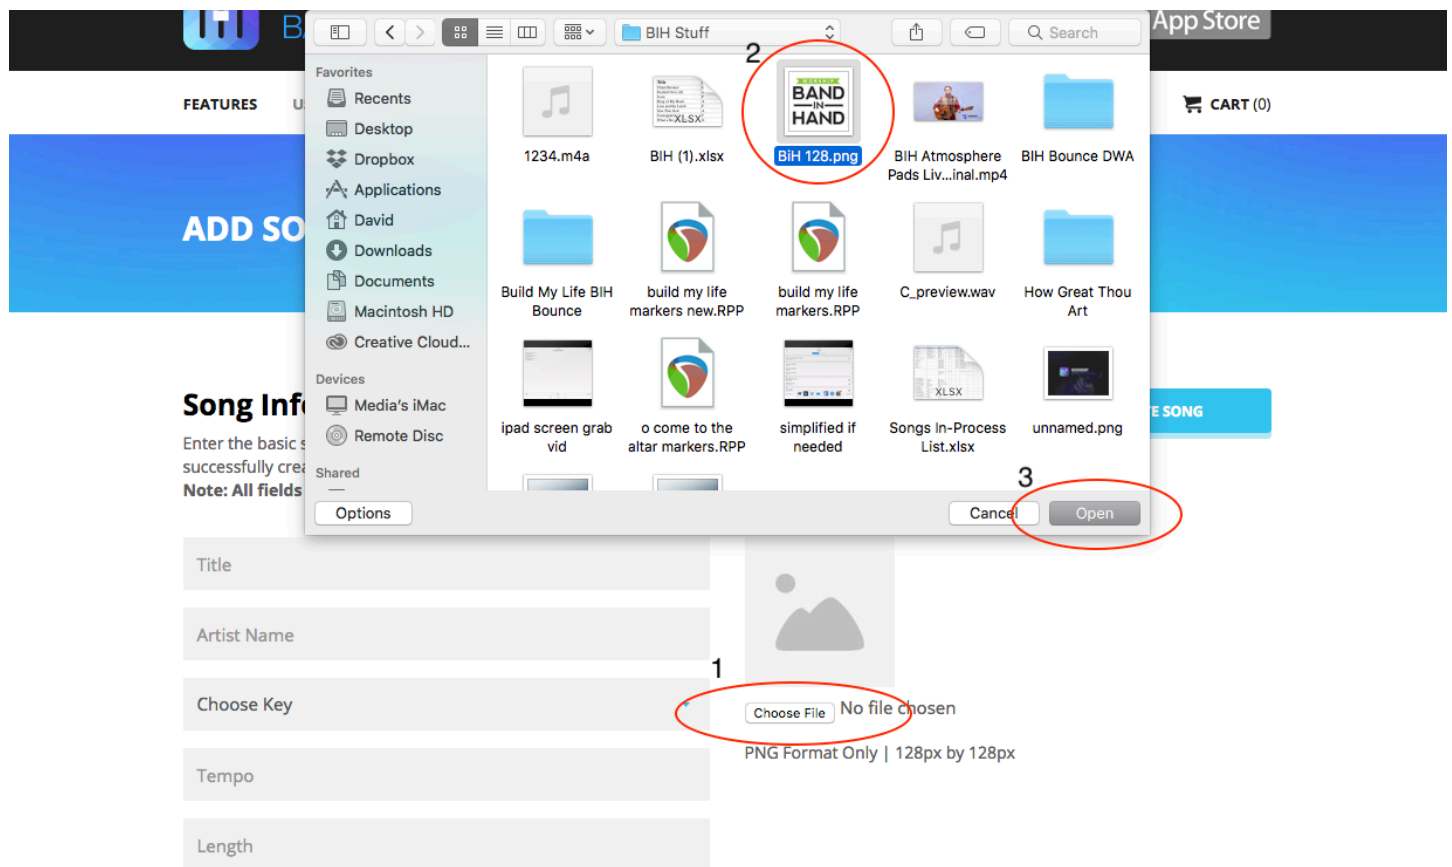

MY SONG UPLOADS

+ ADD SONG

SONG	DATE UPLOADED	MANAGE
1. Psalm 63	2/14/2017	EDIT REMOVE
2. test	4/25/2017	EDIT REMOVE
3. test	4/25/2017	EDIT REMOVE

4) Click the Choose File button under the placeholder to browse your computer for an image to upload as album art for your song. You must do this step. If you don't have a picture to upload, we can supply a generic Band in Hand image. The image must be in PNG format and be 128 x 128 pixels or it will not work.

5) Fill out the song information for the song you're uploading then hit the "Create Song" button.

Song Information:

Enter the basic song information to get started. Once you successfully create a song you can begin adding tracks.

Note: All fields are required.

Song Title Here
Artist Name Here
G major / E minor

5:00

Choose File BiH 128.png

PNG Format Only | 128px by 128px

CREATE SONG

6) The song will then appear in your custom song list in alphabetical order. Find your song, then click the "Edit" button next to it.

SONG		DATE UPLOADED	MANAGE	
1.	Psalm 63	2/14/2017	EDIT	REMOVE
2.	Song Title Here	3/29/2018	EDIT	REMOVE

7) Click the "+ Add More Tracks" button until you have as many tracks as you need. Enter the name of each one in the first box then select the channel in the next box. We suggest making the click track last. Make sure that you check the "Click Track" box on the click track and ONLY on the click track. You should UNCHECK the "Pitch Shifted" box on drums/percussion, and the click track. (they don't need to be transposed up or down when changing pitch in the app).

Add Tracks:

Instructions: Add up to 8 tracks plus click track. MP3 file only with 48kHz sample rate, 128kbps, constant bitrate. Joint stereo encoding recommended but not required. We also recommend disabling "Pitch Shifted" for drums and percussion instruments (these tracks will not be pitch shifted when changing keys in the app).

Drums	Channel 1	<input type="checkbox"/> Click Track	<input type="checkbox"/> Pitch Shifted	MP3: <input type="button" value="Choose File"/> No file chosen	✗
Bass	Channel 2	<input type="checkbox"/> Click Track	<input checked="" type="checkbox"/> Pitch Shifted	MP3: <input type="button" value="Choose File"/> No file chosen	✗

[+ Add More Tracks](#)

SAVE SONG

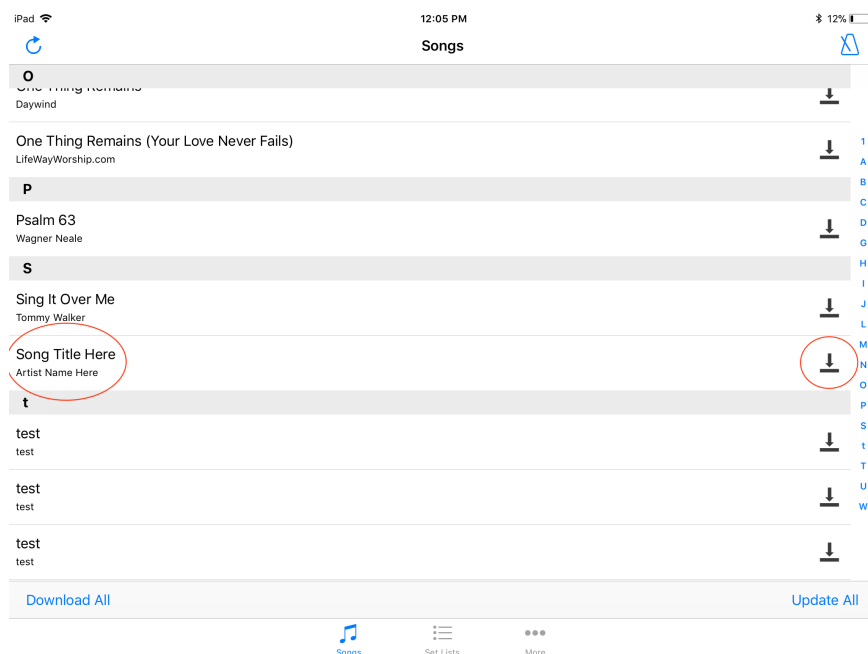

You will see an "Uploading Song Data" box. It may take a while especially on slower connections, so let it run until finished or else you may need to start over with step 7.

10) Once it finishes uploading, you'll be taken back to the Custom Songs page. You'll see the song in your list. This indicates you're done!

+ ADD SONG		
SONG	DATE UPLOADED	MANAGE
1. Psalm 63	2/14/2017	EDIT REMOVE
2. Song Title Here	3/29/2018	EDIT REMOVE
3. test	4/25/2017	EDIT REMOVE
4. test	4/25/2017	EDIT REMOVE

11) Now you're ready to go to your iPad or iPhone and you'll find the song in your song list. Click the download button next to it to download to the Worship Band in Hand app for playback. Once it's finished, then you can use the features of the app to play it like any other song! Keep in mind, with Custom Tracks, you currently cannot rearrange the stanzas—so you'd need to have it in the desired order BEFORE uploading.
